

Certificate of Analysis

Product: Affinity Purified anti-Chicken IgY (whole), Peroxidase Conjugated

Catalog Number: J0301710

Lot Number:

Host: Rabbit

Size: 1 ml

Antibody concentration: 0.5 mg/ml

Label: Peroxidase, from Horseradish

Buffer: PBS, pH 7.4

Stabilizer: 10 mg/ml Bovine Serum Albumin (BSA)

Preservative: 0.05% Thimerosal

Shipping: 4°C

Storage Condition: 4°C or -20°C

Expiration date: one year from date of receiving

Description

Biochain's secondary antibody is manufactured by proprietary technology. The antibody is isolated from antisera by immunoaffinity chromatography using antigens coupled to agarose beads. The antibody's specificity was tested by immunoelectrophoresis. No antibody was detected against non-immunoglobulin serum proteins, but the antibody may cross-react with immunoglobulins from other species. It is very sensitive, and ready to use.

Application

This product is optimized for immunoblotting (Western or Dot blot), ELISA, Immunohistochemistry, and other immunoassay. For immunoblotting (Western or Dot blot), 1:5000 dilution of this product is recommended.

Component

1. One Certificate of Analysis
2. 1 ml of anti-Chicken IgY (whole), Peroxidase Conjugated

FOR RESEARCH USE ONLY
