

Certificate of Analysis

Product Name: xTractPure™ FFPE DNA Extraction Kit

Catalog No.: Z2212002

Lot No.:

Shipping Condition: Ship at Room Temperature

Storage Condition: Upon receipt, store Proteinase K at -20°C.

Shelf Life: 1 year from the date of receipt under proper storage conditions

Description

Components in this kit are prepared with pure chemicals according to proprietary technology. They are designed for the extraction and purification of FFPE DNA from formalin-fixed paraffin-embedded tissue samples.

Quality Control

- This kit is tested by extracting FFPE DNA from a selected tissue block. The resulting eluted DNA is tested for yield and purity and compared to known yields and purity of the same control tissue block to ensure efficacy and reproducibility.

Kit Components

1. xTractPure™ FFPE DNA Extraction Kit
2. Certificate of Analysis
