

Certificate of Analysis

Product Name: Human Cell-Free DNA Control

Catalog No.: Z2121001

Lot No.: C811057

Storage Condition: 2-8°C for short term (<2wks), -20°C for long term (> 2wks)

Shipping Condition: Dry ice

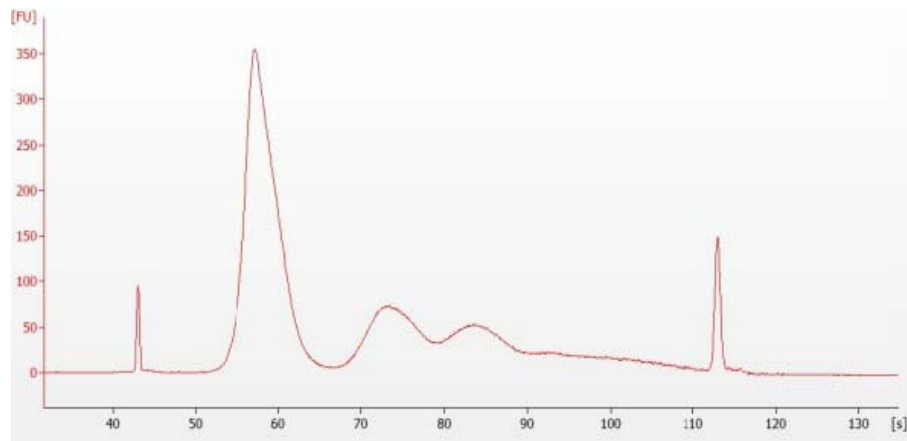

Shelf Life: One year from the date of receipt under proper storage condition

Description

Cell-free DNA is isolated from a pool of 5 normal human plasma samples. The measured concentration of 10 ng/ μ l was determined using Qubit.

Quality Control

- The quality of this human cell-free DNA control was verified using BioAnalyzer analysis. The results of this lot are shown below.

Components

- 100 ng of human cell-free DNA control
- Certificate of Analysis

FOR IN VITRO RESEARCH USE ONLY
